

Newly Formed in 2014

SOPHIA FARM COMMUNITY

A Bio Dynamic C.S.A. Farm and Bakery.

In Honbetsu, Hokkaido, Japan.

100 plus Ha of Mixed forest and meadows for pasture and wildlife.

We have now 6 Jersey cows for dairy products. Soon to start a cow share.

We have 3 beef so far and will get honey bees, sheep, and pigs this spring.

We need help to build a barn and do fence work.

We grow all our own feed for these animals.

We make and use the Bio Dynamic preparations.

We do workshops to teach how to make the preparations.

Our vegetable garden feeds ourselves,

30~ 40 C.S.A. Members, 6~8 volunteers, and apprentices.

Our apprenticeship program is a 2 year course with job placements in Japan and abroad.

We are seeking 3 more apprentices for this year.

We are a W.W.O.F. Of Japan host.

We are an American and Japanese couple.

We will build Eco tiny houses for future staff members.

We are 70% off grid and striving to be more.

Our plan is to make a Bio Dynamic farm community

that is a farmer training center

for the Bio Dynamic Agriculture Association of Japan, (B.A.A.J.)

and support Anthroposophy in Japan.

Please support us by volunteering labor and/or making donation.
